Large-Flowered GLADIOLUS

Gladiolus make attractive displays in the garden planted in beds, or in groups along the border, and are ideal for house decorations. In compiling the following list great care has been taken to select the best variety in each color. Gladiolus are easily grown in any good, well-drained soil in a sunny location. They may be planted at intervals for a succession of bloom from early spring until as late as the first of July.

ULTRA NOVELTIES FROM HOLLAND

For the guidance of those who wish to select the very best of the newest varieties imported from Holland, we offer below a list of eight really outstanding varieties. Each one of these varieties is extra fine in color, with excellently placed florets and tall upright spikes.

JUNEBELLS. Snow-white. Six to eight large florets bloom at a time and are set beautifully on a strong, upright stem.	3	12

Hardy Garden LILIES

SPECIOSUM RUBRUM

No class of plants for outdoor growing possesses as many charms as Lilies. Rich in color, stately and handsome in habit, and of such delicious fragrance that they stand out prominently. No herbaceous border should be without at least a few of them.

Lilies do best in the hardy border or among shrubbery. Any rich garden soil with good drainage will do. Most Lilies delight in a sunny location, but prefer to have the soil around the base of the plant somewhat shaded. Once established, they will increase in beauty each year.

Henryi. The flower-stalks, 3 to 5 feet tall, carry 5 to 8 flowers each, of a rich apricot-yellow. The flower petals are curled beautifully. Blooms in August and September.

Longiflorum (Easter Lily). Large, white, trumpet-shaped flowers on 2-foot stems; delightfully fragrant. Hardy and prolific. Blooms in July.

Philippinense. Lovely long trumpet-like white flowers with a beautiful pale emerald-green throat which gives the flower a distinct appearance. Grows 4 to 6 feet tall. Blooms in August and until stopped by frost.

Regale. A regal beauty. Gorgeous, bell-shaped, white flowers with a touch of canary-yellow in the throat and a shading of lilac-pink on the outside. Grows 3 to 5 feet tall. Blooms in July.

Regale Album. A pure white form of the popular and magnificent Regale Lily. It is new and extraordinarily beautiful.

Speciosum rubrum. Frosted white, suffused rose-pink and spotted crimson. The petals are gracefully reflexed. Blooms in August and September, with many flowers on each 3 to 4-foot stem.

Tenuifolium (Coral Lily). Dwarf, very graceful Lily, with clusters of recurved flowers of brilliant coral-red. Blooms in June. Height 18 inches.

Tigrinum flore-plena. Large, showy blooms of a bright salmon-orange spotted with purplish black. Grows 3 to 4 feet tall and blooms August and September. Very easy to grow.

Umbellatum. Large, straight, funnel-shaped flowers of burning red-orange color. Easily cultivated, robust and well suited to every garden condition. Blooms June and July. Height 2 feet.

AUTUMN-FLOWERING CROCUS

The autumn-flowering Crocus are among the most beautiful of woodland flowers and are at home in either lawn or rock-garden. Each bulb produces a number of Crocus-like blossoms during September and October. Since they bloom without foliage, they are effective when set in carpets of Thyme, Veronica, Pachysandra, and the various Sedums. Plant the bulbs where they can be left undisturbed, to increase each year. The bulbs, if grown indoors, will bloom during September without soil or water and after blooming may be planted outdoors.

COLCHICUM (Meadow Saffron)

Large bulbs which produce clumps of giant crocus-like blooms and maintain a succession of flowers from September till November.
